# Section 4: First aid measures 4.1. Description of first aid measures **General Advice** Show this safety data sheet to the doctor in attendance. INHALATION Remove to fresh air. If breathing has stopped, give artificial respiration. Get medical attention immediately. **Skin Contact** Wash skin with soap and water. In the case of skin irritation or allergic reactions see a physician. **Eye Contact** Rinse immediately with plenty of water, also under the evelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Keep eye wide open while rinsing. Do not rub affected area. Get medical attention if irritation develops and persists. INGESTION Do NOT induce vomiting. Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Call a physician. Self-Protection of the First Aider Avoid contact with skin, eyes or clothing. Wear personal protective clothing (see section 8). Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. 4.2. Most important symptoms and effects, both acute and delayed **Symptoms** Prolonged contact may cause redness and irritation. 4.3. Indication of any immediate medical attention and special treatment needed Note to physicians Treat symptomatically. Section 5: FIRE FIGHTING MEASURES 5.1. Extinguishing media Suitable extinguishing media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. CAUTION: Use of water spray when fighting fire may be inefficient. Large fire **Unsuitable Extinguishing Media** Do not scatter spilled material with high pressure water streams.

#### 5.2. Special hazards arising from the substance or mixture
